### Abstract

Identifies areas subject to a specified level of noise in proximity to the airport. This dataset was obtained in the drafting of the District Plan. The original source data is no longer available for reference.

### Purpose

Ensures any activities within this polygon are conducive to the specified levels of noise. Any development may require mitigation of adverse noise levels. Relates to the implementation of the District Plan under the Resource Management Act (1991), and may be subject to various limitations and conditions. These features are a spatial representation of the policies and objectives of the Waikato District Plan and indicate where policies, overlays and District Plan rules apply.
