Abstract

Polygons representing areas where coal mining and extraction is permitted. The extent of this policy area was created from information obtained from the Ministry of Economic Development Mineral Permits <http://www.nzpam.govt.nz/cms/minerals/permits> This is a dataset derived from the Ministry of Economic Development Mineral Permits. The data will have limited update cycles.

Purpose

To protect access to and extraction of mineral resources from specific areas identified as Coal Mine Policy Areas on the planning maps should not be compromised by new use or development in areas on or close to those areas. Any development or change in land use requires this information in order to avoid adverse effects due to existing land use. Relates to the implementation of the District Plan under the Resource Management Act (1991), and may be subject to various limitations and conditions. These features are a spatial representation of the policies and objectives of the Waikato District Plan and indicate where policies, overlays and District Plan rules apply.
