### Abstract

Lines representing where council may wish to acquire walkways, cycleways and bridleways at subdivision . Note that these

are only Council managed networks.

#### Purpose

Identifies potential walkways, cycleways and bridleways for acquisition during subdivision- both roadside and off-road routes. These are usually in highly populated areas where there are significant natural attractions. Relates to the implementation of the District Plan under the Resource Management Act (1991), and may be subject to various limitations and conditions. These features are a spatial representation of the policies and objectives of the Waikato District Plan and indicate where policies, overlays and District Plan rules apply.
