Abstract

Desirable future road network in areas that have had future land use planning. These data have been derived from urban expansion studies, usually from Structure Plans. The dataset will be updated in accordance with Structure Plan schedules.

Purpose

These polylines will provide planners with information on the intended future transport network. Planners should use these to ensure future urban expansion provides adequate connectivity and ease of traffic movements. Relates to the implementation of the District Plan under the Resource Management Act (1991), and may be subject to various limitations and conditions. These features are a spatial representation of the policies and objectives of the Waikato District Plan and indicate where policies, overlays and District Plan rules apply.
