Description

Waikato District Council - Proposed District Plan, Notified 18 July 2018. The following is a generalized metadata notation, layer specific metadata is in preparation. This layer is a spatial representation of the land use Zones in the Proposed District Plan and indicates where land use zones and associated rules will come into effect. The Zones will be used as a guide in the regulatory process of implementing the Proposed District Plan and managing land use, subdivision, the environment and economy. This dataset is derived from various sources. The zones are predominantly defined by cadastral boundaries and survey pegs. This dataset is subject to changes undertaken through the Resource Management Act. Note individual Proposed Plan rules can have different statuses, some may have current legal effect and others will not until the Proposed Plan becomes operative.
